DETAILED ACTION

1. Claims 1-21 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

As per claim 1, variables “N”, “J”, “ σ_k ” and “ ω ” in the recited equations are indefinite as to what they are. These variables should be defined in the claim. Further, the recitation “coupling the transfer function with a filter to provide an augmented transfer function), line 14, is indefinite as to what it means. Claims 9,15 and 18 also have similar problems.

As per claim 15, it is indefinite as to what “the selected set”, line 9, is in the followed equation.

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Chuong D. Ngo whose telephone number is (571) 272-3731. The examiner can normally be reached on Tuesday-Friday.
